SMART TARP®
SELF-ADHERING ROOF TARP

CAPABILITY STATEMENT
Patented Self-Adhering Roof Protection Solution

Company Overview

Smart-Tarp® provides an innovative, patented self-adhering tarp solution designed for emergency storm recovery and damaged roof protection. Our U.S. patented technology (US 11,773,611 B1) eliminates the need for nails or fasteners, ensuring rapid deployment and mission-critical reliability. Smart-Tarp® offers a scalable, eco-friendly solution that meets the needs of FEMA, the U.S. Army Corps of Engineers, and emergency response organizations.

Core Competencies

Rapid Deployment: Installs 75% faster than traditional tarps, accelerating recovery efforts.

Superior Durability: Withstands wind speeds up to 110 mph, offering reliable storm protection.

Tool-Free, 15-Minute Installation: No special tools required—fast and efficient setup reduces labor costs and response time.

Versatile Application: Ideal for residential, commercial, and government buildings.

Training & Support: Comprehensive guidance ensures effective installation by emergency responders.

Differentiators

Exclusive Adhesive Technology: Ensures a watertight, nail-free seal without damaging the structure.

Proven in Disaster Scenarios: Successfully deployed in major disaster recovery operations, including Hurricane Ian.

Procurement-Ready: FEMA-compliant, with scalable production to meet high-volume demands.

Cost-Efficient: Reduces labor and material costs compared to conventional tarping solutions.

Time-Saving Solution: One-person installation in under 15 minutes, allowing rapid response in emergencies.

Past Performance

- **Disaster Response Success:** Smart-Tarp® was a critical asset during Hurricane Ian in 2022, selling out immediately after landfall in South Florida. It supported contractors, property owners, and Team Rubicon volunteers providing relief efforts in Puerto Rico.
- **Trusted Partnerships:** We work with roofing contractors, emergency response teams, and major distributors, including New Pig Corporation, Sunniland/SRS Distribution, and ABC Roofing. Our products are available through multiple sales channels, including Amazon and eBay.
- **Proven Results:** Smart-Tarp® reduces installation time by up to 75%, requiring minimal manpower and no tools—ensuring faster recovery and cost savings for government agencies and businesses.

SMART TARP®
SELF-ADHERING ROOF TARP

- Smart-Tarp® sold out after Hurricane Ian, aiding recovery in South Florida and Puerto Rico.
- Available via top distributors and platforms like Amazon and eBay
- 75% faster installation.
